*Noted Californians is a reference cyclo-
pedia of Citizens of California.*

*It has been our purpose to furnish a good
photographic likeness, that will afford an
opportunity for the study of human character,
with faithful presentments of the features of
men and women into whose hands have fallen
the material, religious, political and business
interest of the State. Its value to the young
is unquestioned, as it teaches them to emulate
the deeds and accomplishments of those who
are living examples of successful men and
women. We owe our success, in compiling
this, the first volume of Noted Californians,
to the many courtesies extended us by public
librarians, photographers and engravers, and
to them, we extend our thanks.*

A PORTRAIT SUPERIOR IN

HALF A DOZEN WRITTEN
BIOGRAPHIES: OR RATHER,
LET ME SAY, I HAVE

TRAIT WAS AS A LIGHTED
CANDLE BY WHICH THE
BIOGRAPHIES COULD FOR
THE FIRST TIME BE READ,
AND SOME HUMAN INTER-
PRETATION BE MADE OF
THEM."

FOREWORD

IT is the purpose of the editor of "Noted Californians" to furnish a brief but permanent record of some of the men and women who are molding and perpetuating California.

To know how the leaders of the great State really appear to the camera will be a satisfaction to many, not only in California but throughout the nation. It is believed, also, that such acquaintance will serve as a notable stimulus to our youth to aspire to a greater career than that of undistinguished mediocrity. All the persons presented in this volume are living and laboring at the date of publication, and each one calls California their home.

The matter of selection lay entirely in the hands of the editor; and as the reader who knows California may well believe, he found a real embarrassment of riches.

He has tried to give representation to all the leading professions. His own personal acquaintance with the various groups may be unequal. For all omissions and inequalities he begs the kindly consideration of the public, believing that on the whole he deserves its gratitude.
