LOS ANGELES, CAL.

The City of Los Angeles

Is the commercial metropolis of Southern California which comprises the south half of the State. Its population of 600,000 represents almost every State in the Union and many foreign lands.

The social condition of Los Angeles is most marked and compares more than favorably with any sister city of similar population in the East.

The climate throughout the year is such that visitors and tourists from every quarter come to spend a part of the year, and many return to make this their permanent home.

Los Angeles at night presents a most brilliant appearance. It was the first city in the United States to entirely abandon gas for street lighting and replace it by electricity.

Los Angeles will soon have a harbor second to none on the Pacific Coast.

At a cost of nearly \$25,000,000 Los Angeles has executed a municipal feat which has never been equalled.

It is the completion of the aqueduct of approximately two hundred and thirty lineal miles in length, which brings to the city's reservoirs in the San Fernando Valley the pure flood waters of the Owens River from across the Sierra Nevada Mountains.

Los Angeles is the greatest railroad center on the Pacific Coast. Four transcontinental lines are now complete. A network of electric roads connects the city with the numerous beaches, mountain resorts and outlying towns. These are reached by delightful journeys through orange groves and orchards of semi-tropical fruits, and ancient land-marks characteristic of the region.

The school facilities of Los Angeles are especially good. Besides the complete system of public schools, private schools and colleges abound in numbers in and about Los Angeles.

Los Angeles is known as the Convention City of the West. Every year brings large bodies of people here for the discussion of every kind of public interest known.

Ovida Reducing Brassieres

The most successful figure-shaping and health-making garments ever created for feminine wear.

Scientifically contoured to nature's model, the elastri-cot bust sections

mould a graceful, youthful outline with or without corsets, and reduce the bust measurement from 2 to 4 inches at once.

Strong and durable, yet delightfully yielding, and adaptable for every figure, and every costume from negligee to decollete.

No bulging or wabbling flesh, no corset lines, no slipping out of place, or no adjusting. Priced \$3.50 and \$5.00.
