CONGRESS

The Student Council is the executive governing branch of government. Edison Student Council members, elected by the students, have taken a lead for many years in intra-city and region council affairs.

Congress is the legislative department of Edison's student government. Composed of representatives chosen by the students, this year's Congress passed the new constitution governing Edison as a senior high school.

STUDENT STORE

The Student Store supplies Edison's student population with the tools of its trade—paper, pencils, compasses, potato chips, and candy bars. Run entirely by students, the store was built at the beginning of this school year.

The apple machine purchased just two years ago feeds the stomachs as well as the treasury of the student body.

The patio is the favorite eating place of Edisonites during the just-before-vacation months. Barring occasional bursts of peat dust, the great outdoors stimulates appetites.
