FASHIONS OF OUR DAY

Each generation has its fads, customs and fashions pertaining to their time of life. Dress is ever important to the high school student. If it is the "thing" everyone is doing it whether it be listening to Rock and Roll, sipping cokes with friends, or wearing the latest style of clothing.

Leotards, grasshoppers, dessert boots, chemise, trapeze or knitted coats . . . You name it—we had it!

STUDENT GOVERNMENT

Council officers joined leaders of Franklin and Stagg High Schools for a meeting of the National Association of Student Councils in November.

Carol Ballard and Jeanne Evans display the safety banner awarded Edison.

The elected members of Congress form the Legislative Department within the framework of student government. Much of the responsibility of mature thinking rests upon the shoulders of classroom representatives. Only if responsible and interested students serve as Congressmen is the student body membership kept informed of Council business. Congressmen reflect the ideas of those whom they represent and the success of student government is largely their responsibility.

Student government is the most important activity within a school community. Its elected and appointed leaders represent the thinking of the student body. The accomplishments of its departments depend upon the quality of persons elected by the voters.

There is no limitation as to the responsibilities for those students eager and willing to work toward the betterment of their school.

Many groups related to the Executive and Legislative Departments directly contribute to the success of government. Such groups as the Intra-City Council, Stockton Youth Coordinating Council, San Joaquin County Safety Council, and the National Association of Student Councils are groups with which Edison has become affiliated.

The Heratoga Club, organized this year, is a service club whose membership is composed of students outstanding in citizenship. It is the purpose of this club to better our school by setting good examples.

The Heratoga Club launched an anti-litterbug campaign in February, and members have helped teachers with hall control.

This club can also be credited with beginning the new tradition in which students are not allowed to walk upon the school emblem at the entrance to the boys' gym.

CAFETERIA STAFF

Members of the cafeteria staff prepare well balanced meals for approximately two hundred fifty Edison students, one hundred fifty a la carte dishes, six hundred snack bar items as well as prepare meals which are bussed to various elementary schools.

Custodians can be credited with keeping our campus neat and clean. Those at Edison are always willing to do special tasks for students and teachers.

HOMEMAKING

The homemaking department, offering training in sewing, cooking, and child care, prepares Edison girls for their roles as housewives.

Edison homemakers have won awards in both the school and the community.

An annual event of this department is the fashion show sponsored by the Simplicity Pattern Company.

SCIENCE

The science department offers interesting programs in biology, chemistry, and physics. Science students learn through experimentation.

Biology students learn of life by dissecting worms, frogs, and grasshoppers.

Students of physics perform experiments in sound, heat, gravity and other various fields of physical science.

ART

The art department offers a variety of courses for the interested students.

Under the leadership of Miss Campbell, many students have become skilled and have entered the art profession.

This year students entered the McKee Art Contest. Donald Byrd and Jim Cusick were winners.

Miss Campbell looks on as Arlene Itaya, Fred Hempstead and Donald Byrd assemble still-life arrangements to be painted by members of their class.

BUSINESS

The business education department gives excellent training in sales, typing, bookkeeping, stenography, business English, and math to prepare students for business careers.

A work experience program is now in operation which enables students to engage in part time work.

Jeannie Toy demonstrates her typing dexterity in competition with five pairs of hands.
