SENIOR CLASS HISTORY

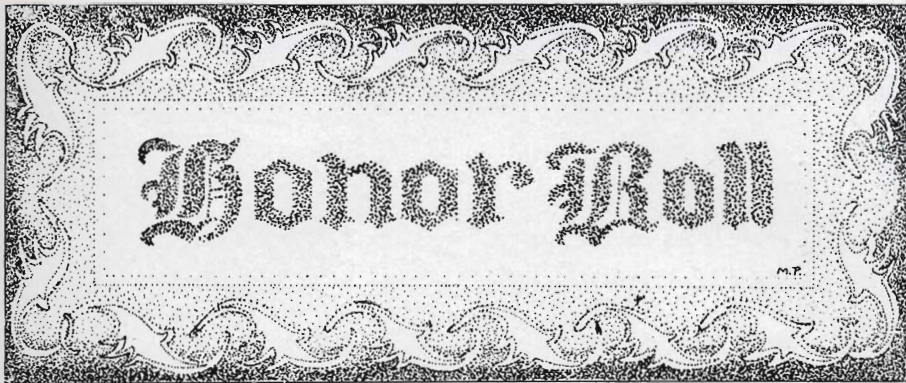

LELDA LA BEAUME

President Kenneth Woolsey
Vice-President Emily White
Secretary-Treasurer Lyda Wassink
Class Representative Floyd Clouse

Nearly one hundred and fifty eager freshmen began their varied and eventful careers under the guidance of Lodi Union High School in September, 1921. All have shown the best of spirit for their Alma Mater during the past four years, and, as a result, have been well represented in all branches of school activities. We are proud of the class of '25 and hope to do as well as the classes which have gone before us.

As we leave these scenes of our successes and failures, we cannot but feel that these years have been happy and profitable ones.

Class Representative	Horace Woodworth
Yell Leader	James Pope

After the hot summer was over in September, 1922, a fresh group of youngsters, numbering about ninety-eight, boarded the "Limited Express" bound for the metropolis of "Graduation." This group was immediately organized into a class with a commanding staff consisting of: Horace Woodworth, president; Vivaline Webb, vice-president; Arthur Bennett, secretary; June Garrison, treasurer; and George Moore, class representative. Of course we had to have a yell leader to guide our lusty cheers as we wended our way, and for this position, Hamilton Richards was chosen. We also had to have a banner by which we could be recognized; so we immediately set about choosing the colors for it. We finally agreed upon a banner composed of green and white colors. From the very first of that year we were well and ably represented in athletic teams and other activities.

The first quarter of our long journey passed by rapidly, and the class dispersed for a whole summer. Then when fall came again, the class once more assembled, with the exception of a few members, and activities about the school were resumed. A new staff of officers had been chosen and they immediately took control of the class. The new officers were Arthur Bennett, president; Cedric Madison, vice-president; Dorothy Rich, secretary and treasurer; George Moore, class representative, and James Pope, yell leader. The class of '26 again played an important part in the activities of the school and was again well represented in athletics.

The third lap of the journey began in September, 1924, after the train had stood idle in a siding for three months, and once more the class of '26, as a body, lightly accepted its duties. We have now completed the third lap, in which, as before, we were well represented in the functions of the school and in athletic sports. Donald Michels, one of our stalwarts, was named to succeed George Emde as captain of the football team next season, and we wish him a hearty success. We again approach a siding, into which we turn our train, to let its wheels rust through the long summer, only to be worn shiny again in the last lap of our journey towards "Graduation."

In the fall of '23 a good number of timid, green freshmen entered L. U. H. S. with shaky knees. Nevertheless, we soon overcame our shyness in our desire to show the upper classmen what we could do. And we did show them. We were well represented in band, orchestra, and athletics.

At the beginning of this, our sophomore year, one hundred twenty-six in number, we became quite bold, and several of our members of the sterner sex offered themselves as football and basket ball heroes. In this capacity they won glory for their class. Great musical talent was discovered among us, too. We are quite well satisfied with what we have accomplished and hope to improve in the next two years and to earn even greater success.

Last September about one hundred and seventy-five freshmen entered Lodi High School. During the year the class has taken part in the activities of the school. Members of our class have taken part in the orchestra and on the athletic teams.

In order that we might give our best to the school we organized, and a capable corps of officers was elected.

In November we were "initiated" into the school and pledged to give L. U. H. S. our support.

We hope to continue our journey together. However, if our ways part we will ever press forward to our goal, "Graduation."

FRESHMAN A CLASS

ALENE WALKER

All things have a beginning, and on January 26, 1925, the freshman A class became a part of L. U. H. S. About seventy-five pupils entered at this time, with all the usual resolutions to learn, and to live up to the traditions of the school.

The class is well represented in all branches of school activities.

We have shown a willingness to learn, and we have been praised for it. We hope to continue together during the coming years and to make each year better than the one before. We hope each member will be loyal to the Lodi Union High School, of which we are a part.

THE ANNUAL

Each year a book of the school is published under the auspices of the senior class. It is known to the students, generally, as "the annual;" and is taken by them, read and digested, and then pronounced good, bad, or indifferent. Few pupils ever stop to think what the annual is printed for, what it represents, and attempts to do.

In the "Tokay" each year the staff, first of all, gives a farewell to the graduating seniors. Then the rest of the publication is devoted to a brief outline of the activities, pastimes, and studies of the school. In doing this the staff members try to show the spirit of the school, the abilities of the students, their accomplishments, individually and as a whole, and any general characteristics or traits of the school and its members.

What the staff aims to accomplish is to edit a book which students may look over in years to come, and in doing so, be made to live over the activities and feel the old spirit of their bygone high school days. The staff of the 1925 "Tokay" hopes that its efforts may in some measure have attained this goal.

OUR HELPERS

The "Tokay" staff hopes you all will like this issue of the annual. We wish to say, however, that without the help of various teachers and school departments this publication would be impossible.

Miss Murdoch, at the head of the English department, has been the guiding light of the staff. The teachers in her department, too, helped select stories and poems, and aided materially in arranging copy.

Miss Barron and her art classes furnished all the cuts and art work for the book. These are essential things, and an annual would be of little account if it did not have them. Our thanks cannot be too profuse.

Miss Christensen, Miss Hurst, and the typing section made the final copy-reading and retouching simple, as they typed all the copy for us.

Many others helped in little things, and it is they that make this book a school publication, and not a mere work of a few. The staff wishes to thank one and all, big and little, for their co-operation and help in making our 1925 "Tokay" a success.

HERE'S TO OUR ADVERTISERS

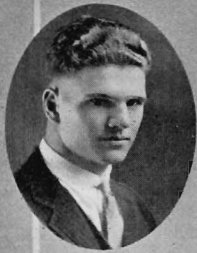

Again we remind you to "patronize our advertisers." This is a time-honored slogan and always will be, for our advertisers are the "men behind the guns." They make it possible for us to publish our diary of the term's activities—the annual. The subscription fees do not begin to cover publishing expenses; so we have to rely on advertisers for a great deal of help.

These business men and establishments whose names appear in the advertising section are not only helping us, but are showing their appreciation of our efforts as a school and their good will for us. Therefore it is only fair and just that we, in turn, should help them and show our appreciation of their interest in us. Let's show them that we do not shout our slogan merely as a matter of precedent.

CUTS!

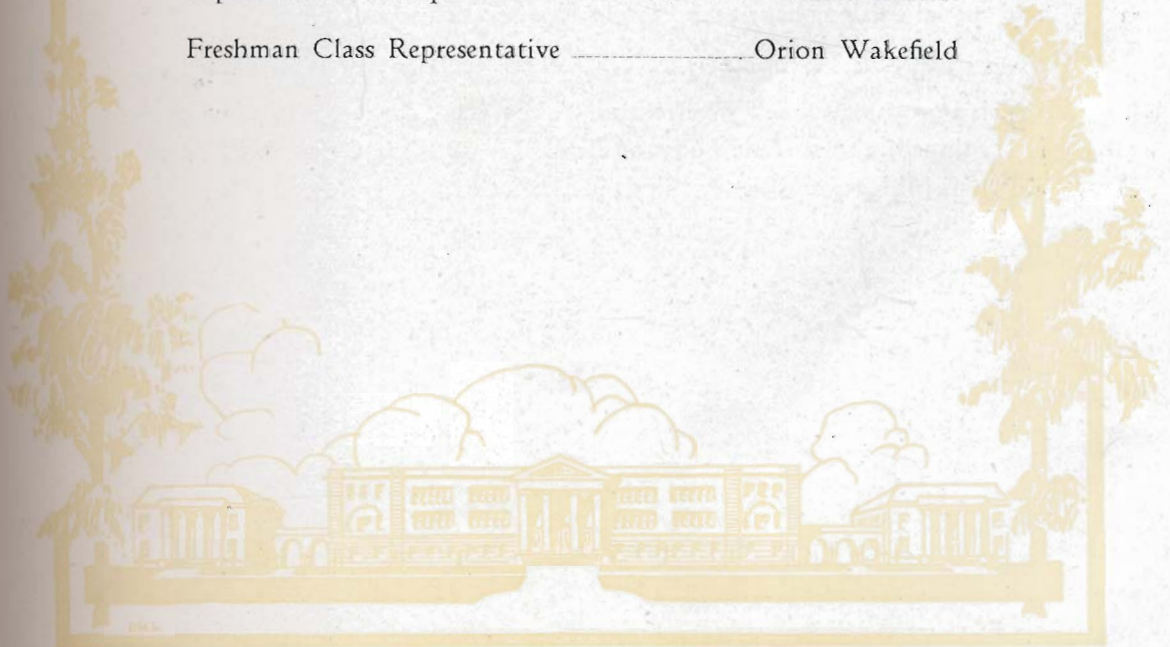

Cuts—The annual has always had them, but not as they are this year. The title pages in this year's Tokay are illustrated by views of the school. These drawings have been reproduced by the art department from snap shots. It is true that this required an immense amount of labor, but the work was gladly carried out by the students in order that this year's annual should be as truly representative as possible.

STUDENT BODY REPORT

Every year sees a steady increase in the student body's enrollment. As a result of this year's enlargement, our student body activities have been very enterprising. Athletics, dramatics, and particularly the school publications have grown and advanced to a considerable extent.

Athletics resumed their former popularity. The football team was able to repeat its splendid history of the preceding year and established a record of which we are all justly proud. The student body desires to thank Mr. Swim, Mr. Dement, and Dr. Boehmer for the untiring efforts in making this year's team such a success. Also, we appreciate the interest and enthusiasm shown by the local business men.

Basket ball and baseball have in turn been successful, but these types of athletics are not as profitable in a financial way as football, the major sport.

A big step forward to increase athletics in Lodi High is the building of the new tennis courts. With the completion of these fine courts, we hope that this neglected sport will be renewed with greater zeal and enthusiasm.

With the aid of the new auditorium and excellent stage equipment, dramatic and musical programs resumed their former interests and have received the hearty support of all.

The school publication, the "Tokay," has been excellent this year. It is issued regularly every other week, and it is newsy and up-to-date. Several extra and special editions have added interest and zest to school life.

The financial standing is on a firm basis, and the outlook for the coming year is a prosperous one. We feel that if the present loyal spirit and co-operation is continued, the student body of Lodi Union High School will be able to accomplish bigger and better things in the future.
