**KEEP LIGHT FROM MILK**

Keep light from milk to prevent loss of riboflavin, its most important vitamin element. If you don't meet the milkman, leave out a covered, insulated box for bottles of milk. Remember that light hurts milk more than heat does in a short time.

Good neighbors are considerate party line users. Remember these party-line golden rules:

- Space your calls instead of making several of them without a break.
- Talk only as long as you have to on each call.
- When you finish talking replace the receiver properly.
- Make certain, if you are using a dial telephone, that the line is clear to receive your call.
- Ask your youngster not to monopolize the telephone.

More and more, business men are finding that it pays in good will to place and receive their telephone calls with as little time-lag for the other fellow as possible. They place their own calls or stay close to the telephone when they tell someone else to do it.

**DANCE LESSONS**  
 Cost No More At  
**ARTHUR MURRAY'S**

This famous school of dancing has become an American tradition, now that we have two hundred studios from coast to coast. This is your guarantee that you will learn the latest and most attractive steps, which all good dancers are using. Arthur Murray's pupils include many people from our best families, leading business men and women, and employees from every type of organization.

In Arthur Murray's pleasant studios you can quickly become a popular, interesting partner, though you may know little or nothing about dancing. His talented, expertly-trained staff has taught thousands of awkward individuals to dance rhythmically, faultlessly.

A few lessons are all you need. And you'll be astonished how little it costs. Rates were never lower. Why not call HUDSON 1-0247 today for the interesting dance analysis and trial lesson offered without charge? Studios open daily from 10 A.M. to 10 P.M.

LESSONS INTERCHANGEABLE AT OVER  
 200 ARTHUR MURRAY STUDIOS

**Avoid Embarrassing Toothless Days**

**FAST PLATE REPAIRS**

# DENTAL PLATES

The Brilliance and Vitality of Beautiful Natural Teeth

sought by dental scientists in the production of artificial teeth used in MODERN DENTAL PLATES—a goal reached in a remarkable manner in the TRANSLUCENT TEETH—now available to all dentists. The SCIENCE and ARTISTRY of setting these translucent teeth in a PLEASING COMFORTABLE and efficient way is the aim of the dentist who devotes his time and professional skill to the CONSTRUCTION of dental plates.

Credit Extended to Pensioners and Senior Citizens
