**QUICK BRASS CLEANER**

You can clean copper and brass instantly by rubbing with a mixture of vinegar and salt. The finish won't last as long as with regular metal polish, but the mixture does a fine job.

You'll get quicker service when you  
dial if you follow these simple steps:

1. Listen for the dial tone. This tone is  
your signal that the equipment is  
ready to take your call.
2. Dial each letter and digit of the  
number in its right order.
3. Draw the dial all the way to the  
finger stop.
4. Remove your finger and let the dial  
return naturally, without forcing or  
hurrying.
5. If you make a mistake while dialing,  
hang up for a few seconds and then  
start your call again.

**TO GLUE FURNITURE**

In gluing a loose furniture joint, remember that glue doesn't provide strength in filling an open space, so first put a strip of thin cotton cloth over the piece that fits into the mortise. Then do the gluing, tie the joint firmly together and let it set for 24 hours.

Good neighbors are considerate party line users. Remember these party-line golden rules:

- Space your calls instead of making several of them without a break.
- Talk only as long as you have to on each call.
- When you finish talking replace the receiver properly.
- Make certain, if you are using a dial telephone, that the line is clear to receive your call.
- Ask your youngster not to monopolize the telephone.

Telephone men in all parts of the  
Bell System have had long experience  
in working together. Tools, equipment,  
methods of tackling the job and the  
"language of the business" are the  
same north or south, east or west. This  
nation-wide unity of method and spirit  
means a telephone service of the utmost  
dependability.

If it's for any kind of welding or cutting  
—gas or electric—get it from VICTOR!
