CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory?
You need it at your elbow at all times, to protect your company from forgers and bad-
check artists. A few questions checked against City Directory information will trip them
at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars
and helped make some cities "too sharp" for bad-check "operators."

Out of Sight - Out of Mind - Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however notorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on Being Well Represented in Its Pages.
