THE PACIFIC TELEPHONE and TELEGRAPH
COMPANY

46288

SEE INTRODUCTORY SECTION FOR EMERGENCY CALLS
AND OTHER IMPORTANT MATTERS

===== **DIRECTORY FACTS AND OTHER MATTERS** =====

PLEASE BE SURE OF THE NUMBER

Obtain the correct number from the latest issue of the telephone directory. If the listing is not found, please call "INFORMATION".

COPIES OF THIS DIRECTORY

Use of an out-of-date directory interferes with good telephone service, as each new issue contains many changes in numbers and listings.

Simply as a matter of good service, the Telephone Company retains ownership of telephone directories.

ERRORS

Every effort is made to make the directory as accurate as possible.

The Company, however, assumes no liability for damages arising from errors or omissions in the making up or printing of its directories.

DIRECTORIES OF OTHER CITIES

Telephone directories of other cities may be consulted at our Business Office.

If you desire any copies, they may be obtained at an additional service charge by arrangement with the Business Office.

IDENTIFICATION OF EMPLOYEES

Employees of this Company who regularly visit the public are provided with a photographic identification card. This card, which is properly countersigned, shows the employee's name, signature and photograph. If you doubt the right of a person to represent himself as an employee of this Company and he cannot furnish an identification card, please call the Business Office.

RATES

Rates and practices included in this directory are based upon those in effect at the time this directory was closed for printing and are subject to such changes as may be made from time to time.

ATTACHMENTS TO TELEPHONES

In the interest of good service, please do not use any devices on telephone equipment except those furnished by the Company. The devices claimed by agents to eliminate noise, to destroy germs, etc., are usually detrimental and interfere with good service.

PUBLIC TELEPHONES

Instructions are posted on or near telephone instruments. Please report any service difficulties or coin collection error to the operator. A charge will not be made on calls which are not completed.

===== **OTHER SERVICES** =====

ARCHITECTS' AND BUILDERS' SERVICE

A free advisory service on advance planning of telephone service arrangements in new homes and other building construction is available to architects, owners and builders. Extensive and costly alterations after the completion of the building are frequently avoided through proper advance planning for telephone outlets. Call the Telephone Company Business Office and ask for "Architects' and Builders' Service".

ASSISTANCE TO FARMER LINE OWNERS

Telephone Company experts are ready to help farmers who own and maintain their own telephone lines in solving their telephone problems. Advice is available without charge to those desiring assistance in

improving and extending farm telephone service in a particular locality. Call the manager at your nearest telephone Business Office for advice.

SHIP TELEPHONE SERVICE

This service provides two-way telephone communication between telephones on land and a ship equipped for radio telephony or between ships and is available to vessels and coastal and harbor craft (yachts, fishing boats, tugs, etc.) when within range of any one of six Telephone Company Pacific Coast Shore Stations. To make a call from a land telephone call "Long Distance" and tell the operator you wish to place a call to a boat, giving her the name of the boat and its approximate location.
