### ODD INFORMATION.

---

Pennsylvania alone produces more coal each year than any foreign country, except Great Britain.

British Guiana produces over \$1,650,000 worth of rice a year, rivaling the colony's output of gold in value.

Its deposits in St. Lawrence county enable New York to outrank all other States in the production of talc.

A mixture of 15 parts of formaline, 20 of milk and 65 of water makes an effective fly poison.

An application has been filed in England for a patent on a secret process of producing ammonia from the air.

Several German steel makers are experimenting commercially with producing the metal in the electric furnace.

There are now 5400 members of the London stock exchange.
