Photographer..... CHARLOTTE DUNCAN

OUR 1948 BLUE AND WHITE, THE LAST YEARBOOK FOR STOCKTON HIGH SCHOOL, REALLY HAS NO THEME. THE STAFF'S IDEA WAS TO PRESENT A COMPLETE PICTURE OF THE MANY VARIED ACTIVITIES THAT HAVE GONE ON THIS PAST YEAR. WE VISIT THE PLACES OF INTEREST AND REVIEW THE MEMORABLE INCIDENTS OF THE YEAR THROUGH THE EYES OF TARZAN AND FREDDY FRESHMAN. TARZAN, THE EXPERIENCED GUIDE, CONDUCTS FREDDY THROUGH EACH DEPARTMENT, AND AS YOU FOLLOW THEM, YOU MAY RELIVE PLEASANT MOMENTS SPENT AT STOCKTON HIGH.

Campus

Let's begin our tour by looking into the building which dominates the campus. Life here centers about the offices of the principal, the deans, the attendance clerks, and the registrar. Located here too is the spacious library, where students like yourself study and do casual reading. Don't miss seeing the Guard and Tackle office, haven for all journalism students.

Do you want to attend a club meeting, take an examination, or pose for a picture? Just go to the Bungalow, a favorite gathering place for the P.T.A. and all school organizations.

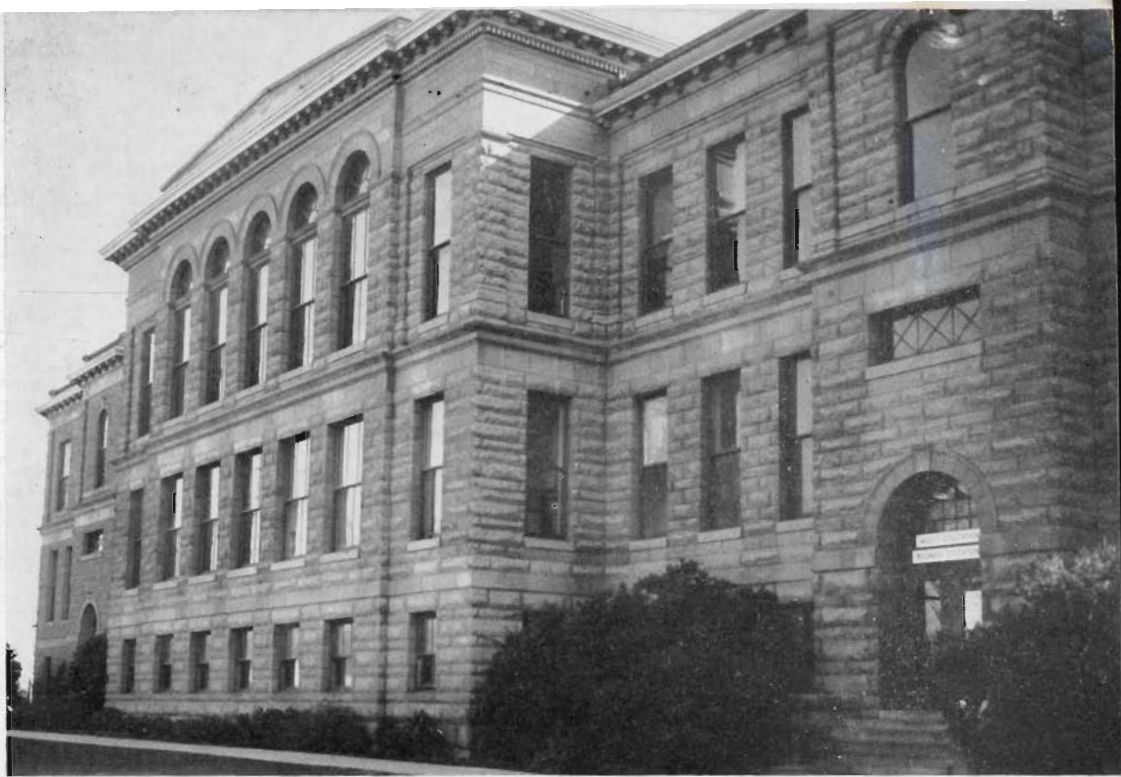

Languages, art, and food are the main interests in this building. In the basement you will find the cafeteria, where hundreds of students enjoy their noon meal. Next stop, the classrooms, where the A B C's of Spanish, French, German, Latin, and Italian are taught. And now the last stop is the Art Gallery . . . classrooms and "famous painting" on one floor.

We are now approaching the Auditorium, where Stocktonians have seen and enjoyed ballets, plays, and symphonies. It is constantly opened for the entertainment of the public, and such dignitaries as Harold Stassen, Eleanor Roosevelt, and Lauritz Melchior have been presented here.

An explosion, a puff of smoke . . . but don't be alarmed. It may not be the atomic bomb. Perhaps it's just a chemistry student illustrating the power of potassium and  $H_2O$ . You will also find physiology, biology, botany, physical science, and cooking taught here.

Mix one well-kept lawn with tall, leafy trees, sprinkle with small wooden benches, add shrubbery of all descriptions, and there you have it . . . the East Glade . . . through which you and your fellow students pass each day on your way to and from school.

Inez Henderson Pond  
Aure O. Longjost.

## Administration

We have seen the place in which we work, now let us introduce to you the people who are responsible for seeing to it that the work is done. First, we want you to meet the four administrators of our school. Interested in every activity in which the school participates, these conscientious workers put all their time and effort toward benefiting the students. Each has a special duty in making our large school run smoothly, and these duties have always been performed with the utmost skill and care.

Mr. Wesley G. Young is the capable and efficient principal who last year assumed the title role upon the retirement of Mr. Ellis. Friendly and understanding, Mr. Young has handled this position with utmost skill.

Miss Alice McInnes and Mr. J. C. Cave, vice-principal and dean of girls, and dean of boys respectively, are the hard working executives who perform their duties with aptness and ability and are always ready to give their attention to the smallest matter.

Mr. Asa Caulkins, jovial registrar, has the job of enrolling new students and graduating the old ones; a task which has meant many years of hard work and outstanding service.

# Faculty

Next, let us visit the classrooms of S.H.S. Here we find some of the very nicest people we know. These are the faculty members . . . those men and women who devote their lives to the task of preparing youth so they can successfully assume their responsibilities in the community, the nation, and the world. Stockton High's faculty is divided into departments, each of which is made up of specialists always ready and willing to give their services whenever called upon.

## English

In these classes you can learn to pronounce, spell, and correctly use the English language. Opportunities are then open in classes of Public Speaking, Play Production, Current and World Literature, Composition, and Newswriting.

Commercial English is taught to those students desiring to enter into business and secretarial work. Both classic and modern literature are studied in the later semesters of this subject.

Mrs. Camp, Miss Green, Miss Larson  
Miss Ayher, Miss Harris  
Miss Saw, Miss Ross, Miss Lovejoy

Miss Hoffman, Miss Anderson, Mrs. West,  
Mr. Adamson, Mr. Lewis  
Miss Devlin, Miss Berry, Miss Richards

## Language

French, Latin, German, Italian, and Spanish are taught by the Language Department. In these classes the students learn customs, history, and grammar. Some classes hold correspondence with other countries, making use of the language they are studying.

Mr. Hofmeister, Miss Lukes,  
Miss Williams, Mr. Foppiano

Many activities other than learning from textbooks keep the language students busy. Some classes prepare native dinners. Others produce plays, using the foreign language. The Christmas season found several classes making greeting cards.

Miss Heggie, Mrs. Anderson,  
Miss De Ruchie

## Commercial

This department contains many specialists in such fields as Typing, Stenography, Bookkeeping, Retail Cooperative, and Retail Selling. Many students are placed in good positions upon completing their commercial courses.

Miss Eberhard, Miss Jacobsen, Miss Powell,  
Mr. Hancock, Mr. Reelhorn

Keeping accounts and taking dictation are the duties of the Stenography and Bookkeeping students. Credit is received for work in downtown stores and offices by those in the Retail Cooperative class.

First row: Mr. Hibbard, Mrs. Schuler,  
Mrs. Decker, Mr. Wentz Second row: Mr.  
Krebs, Mr. Freeman, Mr. Carmichael,  
Mr. Niven

## Art

The basic problems of drawing, color and design, and mechanical art are featured in this department. Invaluable to the school, the art instructors have taken an active part in many student body affairs.

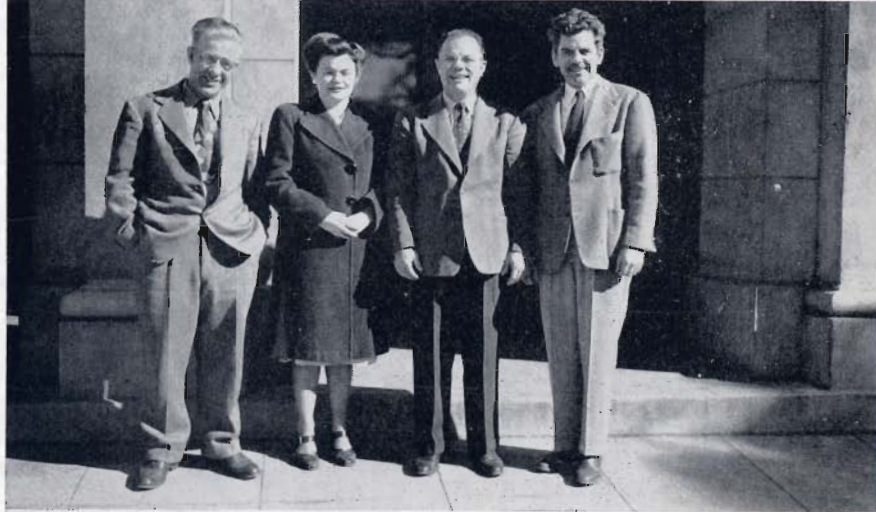

Miss Boberg, Mrs. Wilkins, Miss McDaniel

## Music

You will see the band at all football games, the orchestra, Troubadours, and various choral groups performing for many school functions. Led by outstanding teachers, the Music Department is one of the school's most important.

Mr. Smith, Miss Scott, Mr. Heisinger, Mr. Short

## Social Science

Beginning students first greet the Social Science Department with a general Social Studies course. Here they learn of safety and become familiar with their school.

Mrs. White, Miss Sifford, Miss Schwab, Miss Malic, Mr. Ellis

United States History, a required subject, brings forth many never-to-be-forgotten incidents in early America, and Civics tells us how the United States is run politically. Students may choose other subjects in this department, such as Current European History, Social Problems, and Economic Problems.

First row: Miss Collins, Mrs. McCoy, Mrs. Landrum. Second row: Mr. Drury, Miss Rinset, Miss Brown, Mr. Johnson

## Mathematics

Every student is required to complete one year of Mathematics before graduation. General Mathematics, Algebra, Geometry and Trigonometry provide the basic mathematical training for engineering or similar professions.

Miss Chidester, Mrs. Cripps

Students are taught to reason statements, solve equations, determine distance, and work with graphs. Every instructor specializes in two or more of the mathematics studies.

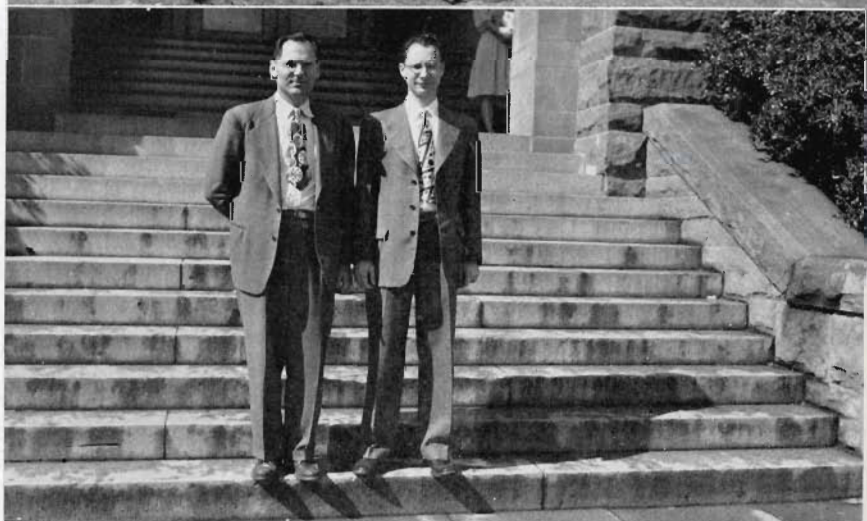

First row: Miss Dunn, Miss Tully. Second row: Mr. Hansen, Miss Pease, Mrs. Staley, Mr. Gossett.

## Science

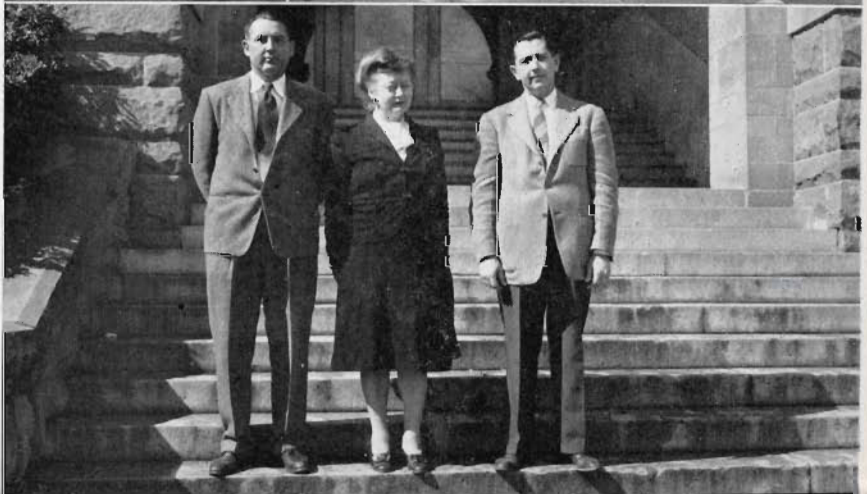

The study of the body is learned in Biology and Physiology classes. Biology brings about the study of both plants and animals. Physiology begins with a brief study of anatomy. Instructors then teach students to carry on experiments.

Mr. Spafford, Mr. Rundle

The physical sciences include General Science, Physics, and Chemistry. Here students perform actual experiments in well-equipped laboratories. They are always watched by keen eyes of well-trained teachers.

Mr. McCain, Mrs. Kerr, Mr. McLaughlin

## Boys P. E.

All boys are required to enter a Physical Education class. Some boys become specialists in such favorite sports as football, basketball, baseball, or track. There are other offerings in tennis and golf. First Aid and Hygiene are required courses.

First row: Mr. Garrigan, Mr. Caviglia, Mr. Evans, Mr. Rogers. Second row: Mr. McKay, Mr. Solomon, Mr. Beanland, Mr. Carpenter, Mr. Lenz.

## Girls P. E.

The girls are also required to participate in a P. E. class. These include rest, special, and regular gym. Each semester the classes get a change in supervised play. Dancing is an outstanding feature of this program and both modern and folk dancing are taught.

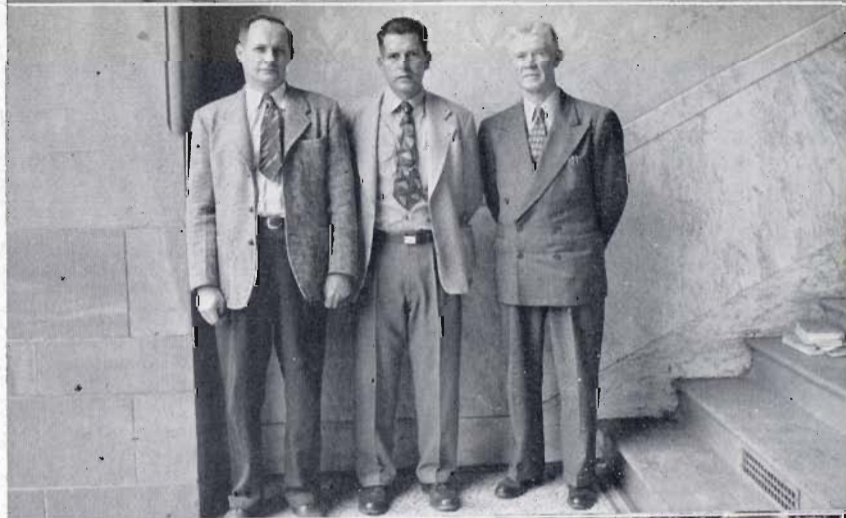

First row: Miss Herbert, Mrs. Solomon, Mrs. May. Second row: Miss Bliss, Mrs. Frye, Miss Sheltman.

## Vocational

Printing, Painting, Woodwork and Welding are open to boys in the Vocational Department. The Print Shop does school printing and puts out the "Guard and Tackle". Classes in Woodwork have made desks and chairs for several rooms in school.

Mr. Geddes, Mr. Stewart, Mr. Comer

The Machine, Auto Repair, and Electric shops teach boys the correct handling and usage of tools. These classes handle outside jobs as well as school work and jobs for the individual students.

Mr. Milligan, Mr. Van Vlear, Mr. Herring

## Home Economics

Work in both Clothing and Foods is required of the girls. In Foods classes she learns which vitamins are lacking in her diet and where to get these needed vitamins. Meals are also prepared. Clothing classes teach color and design.

Miss Bloom, Miss Fowler, Mrs. Lonquist, Mrs. Martin

## Main Office

The Main Office is the home of our principal, Mr. Young. Here workers are ready to serve everyone all of the time. Besides handling a great deal of executive business, this office also handles lost and found and printing of the daily bulletin.

Miss Giacovoni, Miss Sarris, Mrs. Wright

## Commercial Office

The Commercial Office has charge of all financial matters. Tickets for football, basketball, baseball, and other school activities can be purchased here. Each year some students work in the Commercial Office for business experience.

Mr. Carmichael, Miss Smith, Mr. Wentz

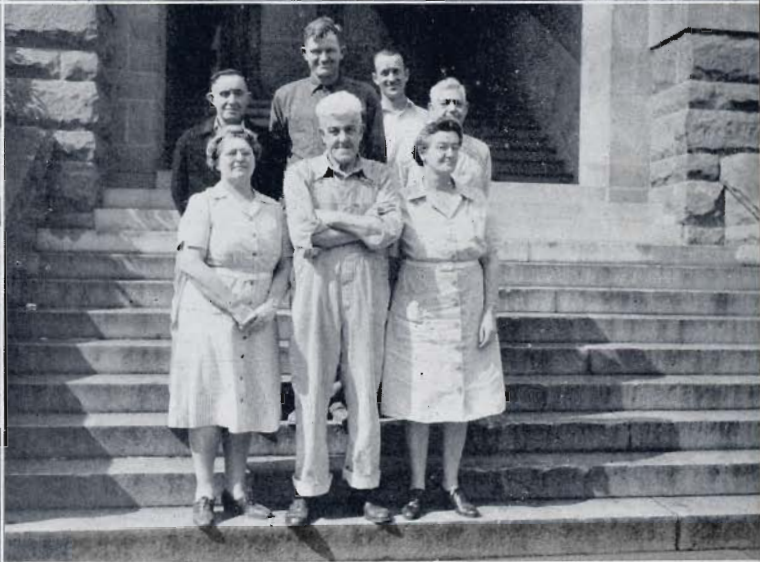

## Attendance Office

Permits to leave and enter classes are okayed here. A daily record of attendance thru-out the school is also kept by these hard workers who listen to excuses of illness each day.

Miss Robbins, Miss Scantlebury, Mrs. Carter

Top: Mrs. Arbios. Middle: Cafeteria worker. Bottom: Miss Smith.

Top, First row: Mr. Nunes, Mr. Olson, Mr. Cullum, Mr. Janeiro. Second row: Mr. Rose, Mr. Titus, Mr. Turner. Middle, First row: Mrs. Bansmer, Mr. Emerson, Mrs. Fielding. Second row: Mr. Walcom, Mr. Branson, Mr. Musto. Bottom: Mr. Olson, Mr. Shumaker, Mr. Multhauf.

The understanding nurse, we are certain you've met her, is very busy with her task of caring for bruises, cuts, and illness. Three times a day hot lunches are served in the cafeteria, and the dog-house is open from ten-thirty to two-ten. Do you want to find information about a famous author, a discoverer, a "Who's Who", or learn about the U.N.O.? The librarians are always ready to assist you.

Some custodians spend their time fixing broken desks, light fixtures, and other articles needing repair. It is their duty to see that classrooms are cleaned at the end of each day for the next day's work.

Our gardeners deserve our vote of thanks, for they tend the campus, plant the flowers and keep the lawn trim.
