memory book

MISS McINNES

D E D I C A T I O N

To Miss Alice McInnes, vice-principal and dean of girls, a loyal friend of Stockton High School, who has endeared herself to all by her gracious manner, her quiet sense of humor, her unselfish devotion to the best interests of the school, and her sympathetic understanding we affectionately dedicate this *Memory Book*.

BUNGALOW

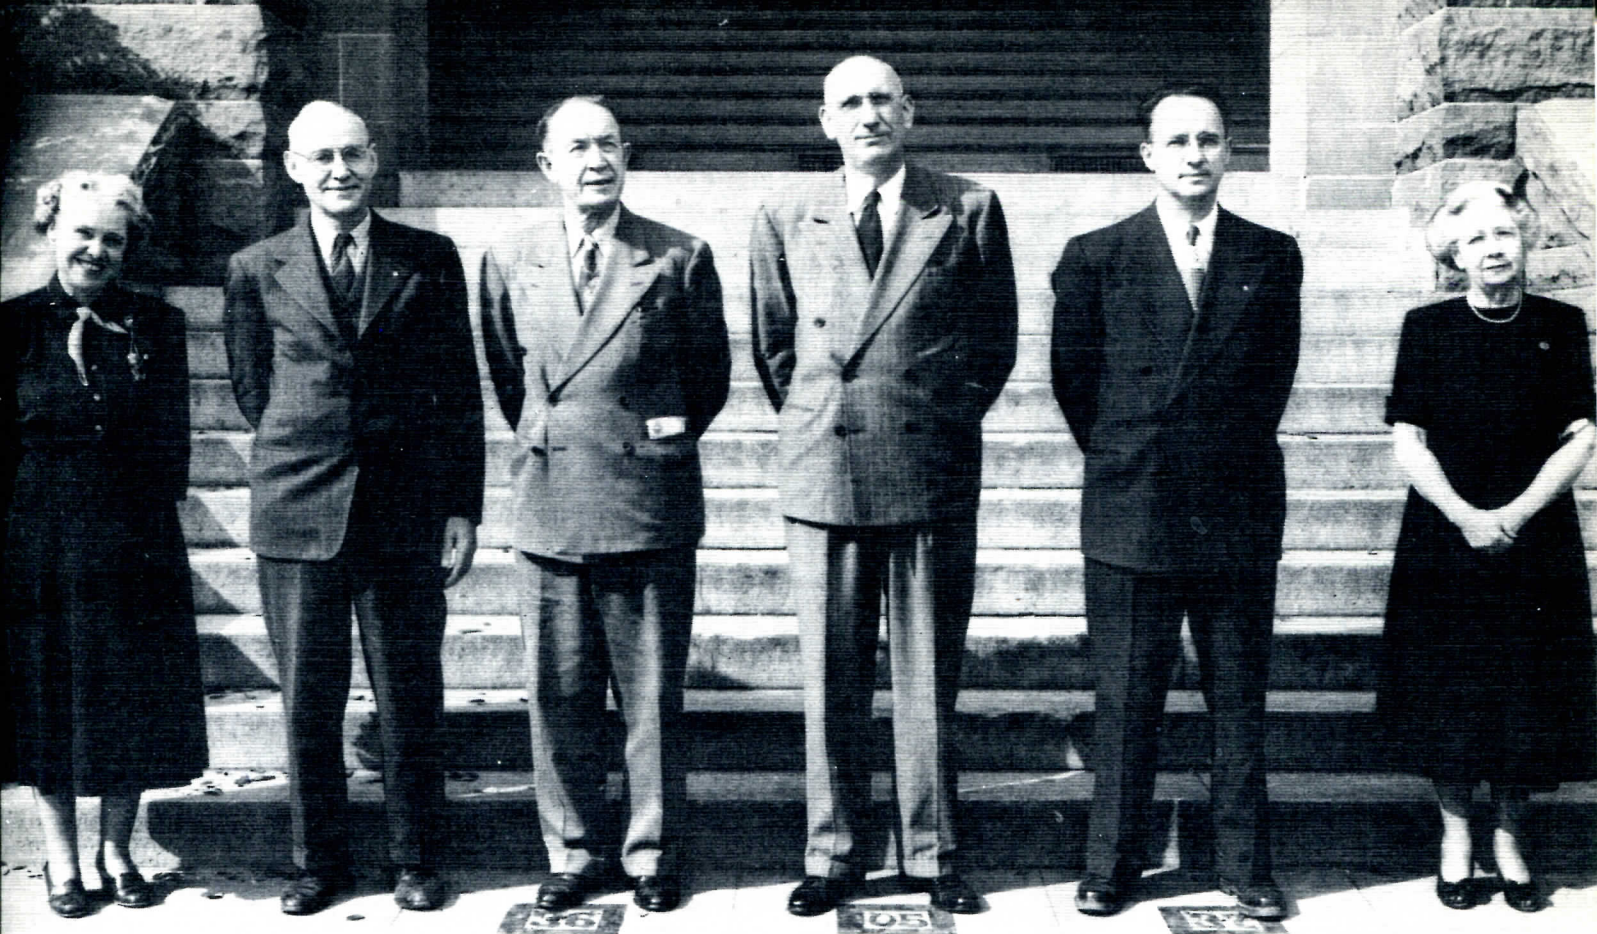

WESLEY G. YOUNG

F O R E W O R D

This has been a year during which both students and faculty have been engaged in adjusting to a new set of conditions and the establishment of traditions. The past of Stockton High School is rich in accomplishment which is attested by the success of its graduates in every field. Many of the graduates of Stockton High School have remained in, or returned to, our city, helping to make it a better place in which to live. The students of Stockton High School in 1948 and 1949 have played their part in educational pioneering. It is a good American tradition to brush aside the difficulties that confront us and to build an increasingly better school. By following high ideals and working together for a common cause, Stockton High School students are enriching their own lives. It is in such a spirit that this *Memory Book of 1949* has been published.
