"Looking it up in the Classified" is a national habit. Purchasing agents, production men and engineers as well as housewives refer to the Yellow Pages when they are ready to buy.

When You Have FORGOTTEN...A NAME

You'll get quicker service when you dial if you follow these simple steps:

1. Listen for the dial tone. This tone is your signal that the equipment is ready to take your call.
2. Dial each letter and digit of the number in its right order.
3. Draw the dial all the way to the finger stop.
4. Remove your finger and let the dial return naturally, without forcing or hurrying.
5. If you make a mistake while dialing, hang up for a few seconds and then start your call again.

**FOR BEST RESULTS
WITH YOUR TELEPHONE**

please . . .

Make sure of the number. If in doubt consult the Telephone Directory.

Speak with lips close to the mouthpiece, using your natural tone of voice.

And give the called person
TIME to answer!

Thank You!
