A store may not immediately come to the mind of a prospect when special services are desired, such as are offered by a Beauty Salon, Radio or Watch Repairing Department. Many establishments, realizing this, advertise under several classifications in the Classified Directory. Thus they direct more business their way.

PLEASE LISTEN for the DIAL TONE BEFORE DIALING

That "dial tone", a steady hum, is the signal that the equipment is ready to receive a call. It corresponds to an operator's "Number, please?"

The men and women in the Bell System are used to meeting emergencies and they are trained and equipped to carry on in times of special need. For years they have known the test of fire, flood and storm. Always before them is the tradition that "the message must go through".

A store may not immediately come to the mind of a prospect when special services are desired, such as are offered by a Beauty Salon, Radio or Watch Repairing Department. Many establishments, realizing this, advertise under several classifications in the Classified Directory. Thus they direct more business their way.
