Telephone men in all parts of the Bell System have had long experience in working together. Tools, equipment, methods of tackling the job and the "language of the business" are the same north or south, east or west. This nationwide unity of method and spirit means a telephone service of the utmost dependability.

You'll get quicker service when you dial if you follow these simple steps:

1. Listen for the dial tone. This tone is your signal that the equipment is ready to take your call.
2. Dial each letter and digit of the number in its right order.
3. Draw the dial all the way to the finger stop.
4. Remove your finger and let the dial return naturally, without forcing or hurrying.
5. If you make a mistake while dialing, hang up for a few seconds and then start your call again.

The men and women in the Bell System are used to meeting emergencies and they are trained and equipped to carry on in times of special need. For years they have known the test of fire, flood and storm. Always before them is the tradition that "the message must go through".

When
N A M E
or
ADDRESS
Is Forgotten

Someone has told you of a certain concern or you've read their advertising somewhere

LOOK IN THE
