A thoughtful party-line user answers her telephone bell promptly . . . places her own calls accurately, so that they do not have to be placed again . . . does not monopolize the telephone at the inconvenience of others . . . teaches children, too, the little telephone kindnesses . . . and when her telephone is not in use, sees that it is hung up.

A store may not immediately come to the mind of a prospect when special services are desired, such as are offered by a Beauty Salon, Radio or Watch Repairing Department: Many establishments, realizing this, advertise under several classifications in the Classified Directory. Thus they direct more business their way.

FOUR THOUGHTFUL ITEMS OF TELEPHONE PROCEDURE—

1. Please answer promptly.
2. Please be on the line when the party you want answers.
3. Please speak distinctly and without hurrying, with the lips close to the mouthpiece.
4. Please replace the receiver gently when through talking.

More and more, business men are finding that it pays in good will to place and receive their telephone calls with as little time-lag for the other fellow as possible. They place their own calls or stay close to the telephone when they tell someone else to do it.

WE "COVER" THE NATION

Allstate is a national organization protecting you, day and night, no matter where you drive in the United States or Canada.

For example, a New York policy holder who gets into an accident in Kansas is assured of quick action through local adjusters or attorneys—men who are thoroughly trained in handling claims the Allstate way. From the moment the accident is reported, Allstate immediately goes to work, relieving the policy owner of legal entanglements, worry, trouble and inconvenience.

Telephone men in all parts of the Bell System have had long experience in working together. Tools, equipment, methods of tackling the job and the "language of the business" are the same north or south, east or west. This nationwide unity of method and spirit means a telephone service of the utmost dependability.
