Loans are made on salary only or on car or furniture. Special service for business women.

1. Listen for the dial tone. This tone is your signal that the equipment is ready to take your call.
2. Dial each letter and digit of the number in its right order.
3. Draw the dial all the way to the finger stop.
4. Remove your finger and let the dial return naturally, without forcing or hurrying.
5. If you make a mistake while dialing, hang up for a few seconds and then start your call again.

A thoughtful party-line user answers her telephone bell promptly . . . places her own calls accurately, so that they do not have to be placed again . . . does not monopolize the telephone at the inconvenience of others . . . teaches children, too, the little telephone kindnesses . . . and when her telephone is not in use, sees that it is hung up.

Good neighbors are considerable party-line users. Remember these party-line golden rules:

- Space your calls instead of making several of them without a break.
- Talk only as long as you have to on each call.
- When you finish talking replace the receiver properly.
- Make certain, if you are using a dial telephone, that the line is clear to receive your call.
- Ask your youngster not to monopolize the telephone.

Monuments

Whatever man owes to those gone before can only be paid in memory... respectful and sincere. A memorial will secure that memory, constantly and inspiringly, for all posterity.
