A store may not immediately come to
the mind of a prospect when special serv-
ices are desired, such as are offered by a
Beauty Salon, Radio or Watch Repairing
Department. Many establishments, realiz-
ing this, advertise under several classifica-
tions in the Classified Directory. Thus they
direct more business their way.

Do you wait for the dial tone before dialing? When you dial before hearing the tone, you prevent the equipment from getting you your number. You also impair its ability to serve other users. Waiting for the dial tone helps the service to serve all.

If you're not sure of a telephone number, please try the Directory first. The chances are that the number is listed, and if you can avoid that unnecessary call to information, it's just that much time saved all around.

Save time and trouble by looking in the Classified Telephone Directory first. It tells you who sells things, who mends things, who does things.

Don't Throw It Away

Things around the house you consider useless—may need only minor repairs to make them serviceable. Call a service man near you.
