NOVEMBER 1948

THE PACIFIC TELEPHONE and TELEGRAPH COMPANY

SEE INTRODUCTORY SECTION FOR EMERGENCY CALLS
AND OTHER IMPORTANT MATTERS

OTHER MATTERS

IDENTIFICATION OF EMPLOYEES

Employees of this Company who regularly visit the public are provided with a photographic identification card. This card, which is properly countersigned, shows the employee's name, signature and photograph. If you doubt the right of a person to represent himself as an employee of this Company and he cannot furnish an identification card, please call the Business Office.

RATES

Rates and practices included in this directory are based upon those in effect at the time this directory was closed for printing

and are subject to such changes as may be made from time to time.

ATTACHMENTS TO TELEPHONES

In the interest of good service, please do not use any devices on telephone equipment except those furnished by the Company. The devices claimed by agents to eliminate noise, to destroy germs, etc., are usually detrimental and interfere with good service.

OTHER SERVICES

ARCHITECTS AND BUILDERS SERVICE

A free advisory service on advance planning of telephone service arrangements in new homes and other building construction is available to architects, owners and builders. Extensive and costly alterations after the completion of the building are frequently avoided through proper advance planning for telephone outlets. Call the Telephone Company Business Office and ask for "Architects and Builders Service."

ASSISTANCE TO FARMER LINE OWNERS

Telephone Company experts are ready to help farmers who own and maintain their own telephone lines in solving their telephone problems. Advice is available without charge to

those desiring assistance in improving and extending farm telephone service in a particular locality. Call the manager at your nearest telephone Business Office for advice.

SHIP TELEPHONE SERVICE

This service provides two-way telephone communication between telephones on land and a ship equipped for radio telephony or between ships and is available to vessels and coastal and harbor craft (yachts, fishing boats, tugs, etc.) when within range of any one of six Telephone Company Pacific Coast Shore Stations. To make a call from a land telephone call "Long Distance" and tell the operator you wish to place a call to a ship, giving her the name of the vessel and its approximate location.
