## BOARD OF TRUSTEES

The Board of Trustees is composed of five persons elected for a three year term by the voters of the district to represent them in determining school policies. These men deserve much credit for the long hours they serve, without compensation, in behalf of all the students in the San Juan Union High School District. Their study of the educational needs of our district and the decisions they have made have helped establish the fine reputation of the schools in our district.

## DISTRICT ADMINISTRATION

The district administration of the San Juan Union High School District works under the direction of the board of trustees by carrying out policies and administering the various high schools. The principal duties include the securing of teachers and other employees, planning new buildings, providing the needed equipment and teaching supplies, giving direction to the curriculum and in short operating efficiently and economically, a multi million dollar business that provides for the high school students in our district.

Principal's Message

For some time I have been looking for the answer to a question asked of me by a boy who dropped out of school when he was sixteen and who came back some six months later to find how he could finish his high school graduation requirements. His question was, "Why didn't someone make me realize how important a high school education is?"

The fact is that we have tried many different ways of showing the values of an education and we're equally sure that parents, as a whole, have encouraged their children to attend school and to profit from the instruction offered. However, there is still a significant number who do not finish high school and it is our earnest hope that the number can be reduced through improved methods of instruction, counseling, and self analysis. The end result then would be a far greater number who would recognize the value, both immediate and remote, of continued learning through colleges and universities, trade schools, correspondence courses, adult classes and the many other ways by which one may further his education.

We congratulate the class of 1959 which is honored in this book as the latest group of graduates to leave San Juan with our stamp of approval. We're proud of you for recognizing the merit of an education and commend you for having the determination and maturity to make high school graduation not a dream, but a reality.

For lower classmen who read this we can only hope that you too, in the not too distant future, will earn the right to be called a San Juan graduate. The thousands who have preceded you will say, "It's worth working for."

## COUNSELORS

We, the students of San Juan High School, would like to express our deepest appreciation and heart felt thanks to our Counselors who have given us all the help and guidance we have needed, and when we needed it most, during our years at San Juan. This year was the first year they have used Group Counseling, which has worked out extremely well. Under the able supervision of Mrs. Essie Pursell, the Counselors have had a very successful year and should be applauded for the work they have done so well.

With tasks too numerous to mention, our Office Staff has kept two smooth and well-run offices this year. With the increasing number of students this year, the task of keeping attendance records straight and aiding the Administration in keeping the school running smoothly has been a tough job, but these woman have done an excellent job. Our thanks to you, the Office Staff.

## P. T. A.

"The San Juan Union High School District exists for one purpose, to educate your children as you want them to be educated." Dr. Russell Esvelt, Assistant District Superintendent in charge of Instruction, made this challenging statement to his audience at the September meeting of the San Juan High School P.T.A.

If we "expand our circles of cooperation," we can meet this challenge by keeping our interest keen in our childrens' education.

Won't you help us do this by attending the monthly meetings of your P.T.A. and learning what is really happening in our school and to our youth.

## STAFF

This year's staff, composed of 16 Seniors and three juniors, may have been seen busily running through the halls in search of valuable pictures and information for the annual. Many hours were spent working diligently over copy, layouts, and pictures. Snow cones and carrots were again sold at football games to help finance the publication of the annual. We hope our many hours of work have resulted in an interesting and attractive yearbook.
