FOR TELEPHONE USERS
 WHO ARE HARD OF HEARING

Important aids for the deaf have been developed by the Bell System. Those who are hard of hearing over the telephone can be provided with head sets and special amplifying equipment. Our business office will gladly explain.

Modesto Upholstering Co.
 D. G. COBB
 Phone 2562 606-7th Street

There is no greater factor in the economy of time than the use of the long distance telephone. The service is prompt, efficient, convenient and satisfactory.

Consider Your Case

YOU are in business to make money.

If some one should show you how you could increase the volume of your sales at small cost, would you try it?

Our long distance lines are used daily by firms that are conducting successful selling campaigns.

Have you ever tried selling goods by telephone?

It will pay you to give this some thought.

Why not arrange a selling campaign by telephone?

HAND TELEPHONES Available in Two Styles

The familiar cradle-type hand telephone is a combination of utility, convenience and good looks. It is preferred in most homes and offices.

The hang-up type hand telephone allows more desk working space and yet is in easy reach for instant use. It is also ideal for home kitchens and other locations where there is no table space.

For information about this or any other telephone equipment call our Business Office.

Telephone Service

for those

Who Do Not Hear Well

A special telephone has been developed by the Bell System for the aid of people with impaired hearing.

Installed in the home or office, it amplifies the volume of sound.

Our business office will gladly give you further information.

Guests
Are
Coming...

YOU are in a hurry! If you only knew what store handles some last-minute item you have seen advertised!

Consult the Yellow Pages of this telephone book. Look for the article by name.

Underneath the trade mark you will find dealers who sell it. A telephone call to the nearest store does the rest.

For
Emergency Shopping
use the Yellow Pages
