

POLK'S LODI CITY DIRECTORY 1930

COPYRIGHT, 1930, BY R. L. POLK & CO. OF CALIFORNIA

THE LODI DISTRICT

By E. E. DAVID

Secretary-Manager, Lodi District Chamber of Commerce

NO SUPERLATIVES could describe the intensive cultivation and diversified production of the Greater Lodi District. Upon entering the district from any direction a great vista of orchard and vineyard, green all the summer, greets the eye. The territory known as the Greater Lodi District covers the northern part of San Joaquin County, forms the northern part of the San Joaquin Valley, and is just south of the Sacramento Valley. The City of Lodi, with an approximate population of 7,500 is the marketing and trading center for this district, and for the smaller towns of Lockeford, Clements, Victor, Woodbridge, Acampo, Thornton, Kingdon and Terminous. Quoting from the United States Geological Survey, "The farm area surrounding Lodi is one of the most thickly settled rural districts in the United States. There are more than sixty-four homes to the square-mile in a few parts of the area, and a density of twenty homes to the square-mile is common."

The soils of the Lodi District are deep, rich, sandy loam, and are adapted to all agricultural and horticultural crops, and especially to the culture of the famed Tokay Table Grape. The mean temperature is 60.1°. The rainy season is during the months of December, January, February and March, during which time approximately 15 inches of rain falls. This is sufficient for grain farming, but vineyards and orchards are irrigated. Some use centrifugal or turbine pumps; part of the western section of the district is irrigated from the Woodbridge canal which draws water from the Mokelumne River.

The most important shipment originating in the district is that of the Flame Tokay Grapes; 3,944 cars were shipped during the season of 1929. A total of 4,507 cars of all other varieties of table and juice grapes was shipped. Cherries are the first crop of the season, ripening early in May. From that time on during the summer fresh fruit shipments and cannery product shipments are almost continuous until the close of the grape season in November. Other important tree fruits are peaches, pears, apricots, plums, almonds and walnuts. Many peaches and apricots are dried or canned.

The delta region of the San Joaquin and Sacramento Rivers is often called

the "Holland of America" because of the vast acreages of vegetables. The Western Pacific Railroad shipped from Terminous, which is the shipping point for the portion of the delta in the Lodi District, 2,264 cars of celery during the 1929-1930 season; 594 cars of potatoes, 197 cars of onions, and 94 cars of sugar beets during the year of 1929. The asparagus was taken out by water or by truck.

Dairying and poultry raising are rapidly becoming important occupations in the vicinity of Lodi. A large supply of eggs from the district helped to make up the recent shipment of eggs to Argentina.

The City of Lodi owns the water and light system, and through the profits therefrom have been able to build a fine city hall and to hold the tax rate at a very low figure as well as furnish water and electricity to the residents of the city at very reasonable rates. Most professions and lines of business are represented in the city. The district is served by the Southern Pacific, Western Pacific and Santa Fe Railroads.

There are five elementary schools and a Union High School, a Seventh Day Adventist Normal and two parochial schools. There are twenty-nine churches. The Rotary, Lions, Exchange, 20-30, and Junior Lions have clubs. Also, there is a Woman's Club, and Business and Professional Women's Club, and many secret and fraternal orders. (Churches and club officers are listed elsewhere in this Directory.)

Boating on the waterways throughout the Delta is becoming a very popular recreation. Such recreational points as Yosemite Valley, Lake Tahoe, Calaveras Grove of Big Trees, and interesting points on the coast are within easy traveling distance.

Inquiries addressed to the Lodi District Chamber of Commerce, Lodi Business Men's Association or the City Council will receive prompt attention.

In line with the economic trend to standardize all generally used products, THE ASSOCIATION OF NORTH AMERICAN DIRECTORY PUBLISHERS has decided to make, and is now making, all city directories published by Association members conform to certain standards in regard to make-up, compilation and classified business headings which will simplify and facilitate their use.

YOUR CITY DIRECTORY SHOULD BE TRADE-MARKED

Contact is the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The greatest factor in the refinement of ideas and ideals, made possible by association contacts, are the greatest factor in the refinement of a service or a product. They help that service or product attain a high degree of perfection. This is the office performed by the Association of North American Directory Publishers.

READ ALL ORDERS CAREFULLY BEFORE SIGNING.
 PAY NO MONEY IN ADVANCE. All well-known publishers instruct their men to collect nothing prior to publication.

YOUR CITY DIRECTORY IS STANDARDIZED

Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California; shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.
