SAN JOAQUIN COUNTY TOWNS (1931)

49

## The Ripon District

Ripon is situated near the center of the South San Joaquin Irrigation District, in the south part of San Joaquin County and near the Stanislaus River. We have as large a percentage of home owners as can be shown anywhere in this valley.

Fruit, vegetables, nuts, melons, grapes and grains are profitably grown here, and poultry and dairying are among our most profitable industries.

Nestles Food Products plant, located in Ripon, at a cost of approximately \$250,000, is now doubling its present capacity and materially assists to furnish a local market for much of our produce from our modern dairies. An abattoir at which fifty or more calves per day are prepared for market, is in operation under the management of the Milk Producers Association of Central California.

The new Meyenberg Laboratories has recently been dedicated, making a second milk plant which is a big asset to the community. This plant has a capacity of 48,000 cans daily.

On the Golden State Highway, with improved macadamized roads running in every direction, markets are easily and speedily reached, by either our local trucks or over the main line of the Southern Pacific Railway, through auto-stage lines or by air traffic.

Two grammar schools, a junior high school and a senior high school, all well housed, prepare our youths for the battles of life.

Five different churches, with modern and convenient edifices may be chosen from in selecting our religious activities.

Probably the most perfect sewer system of any town in the state of one thousand inhabitants is municipally owned together with a 46-acre sewer farm.

Insurance rates have been reduced because of the efficiency of our live-wire volunteer Fire Department.

Ripon also has a Chamber of Commerce that gets everything it goes after and its secretary will be glad to give any further information desired.
