The Tracy District

By L. H. GRADY

Secretary-Manager, Tracy Chamber of Commerce

Tracy is the center of 100,000 acres of some of the richest agricultural land in the nation. It is one of California's most progressive and rapidly growing cities (1930 Census showed 56% increase). Climatically, Tracy enjoys mild winters and the summer heat is moderated by prevailing west winds from the ocean.

Beautiful homes, surrounded by well kept lawns and profusely blooming gardens, offer a wide variety of interest and charm to the home lover. Country homes with all the modern conveniences of the city dweller set in lovely surroundings of orchards and green fields. Splendid highways and rural schools that give all the advantages of the cities. Several of Tracy's business men live in beautiful homes in the country near the city, where they enjoy all the comfort and conveniences of the city dwellers with all the additional privileges and advantages of the rural home.

The cultural side of the city has received most careful attention on the part of the citizens. Tracy Union High School and the three excellent grammar school within the city, with ample playground and recreational facilities, would do credit to a city much larger.

The religious life of the community is represented by six churches of various denominations, and the most friendly feeling exists among them.

Fraternal organizations of almost every kind furnish that social contact which adds so much to the pleasure of living. The American Legion Post with Ladies' Auxiliary, Women's Club, Garden Club, Rotary, Lions, Twenty-Thirty, Boy Scouts, Chamber of Commerce Luncheon Club, are well maintained and growing organizations.

The business streets are wide, well paved and lighted. The residential streets are paved, well lighted and lined with beautiful shade trees.

The Tracy Inn, a modern, up-to-date comfortable hotel, community built and owned, provides accommodations to meet every varying taste and need. It is the social center of Tracy. The most discriminating and experienced traveler will find here all the comforts of America's best hotels.

Tracy has a modern Municipal Airport. The field consists of 160 acres. The surface has been placed in excellent shape so that landings can be made anywhere in all kinds of weather. The soil is smooth gravel and runways are unnecessary. There is an 8,000,000 candle power Standard Aeronautical beacon mounted on a steel tower at the northeast corner. The field is equipped with flood lights, hangars, telephone service, gas, oil, air and a modern repair shop. Tracy is proud of its modern airport.

For years the vast fertile plane surrounding Tracy awaited the magic touch of water. Today seven specific irrigated areas embrace this district. This magnificent irrigation development has made a miraculous change. Wheat and barley, once the principal agricultural pursuit in this region, has long since given way to dairying, poultry, alfalfa, baby lima beans, fruit, nuts, vegetables, honey, grapes, olives, lettuce, celery, potatoes, asparagus, sugar beets and other crops.

This district ranks as the state's most important baby lima bean center, 11,275 acres with an excellent crop. Over 14,000 acres of sugar beets will yield 300,000 tons. These beets are manufactured into sugar at Tracy in a \$1,000,000 modern sugar plant, which will produce this year 900,000 bags of high grade sugar.

Here prosperous industries thrive and provide large payrolls, others are coming to provide still greater employment. Here is located the Dairymaid Milk plant, producing 25,000 cans of milk per day in addition to large quantities of powdered milk, cheese, butter and other dairy products.

Tracy is an important railway center on two transcontinental lines. Here is located a division point on the Southern Pacific railway, employing over 1,000 men with an annual payroll of \$1,400,000.

The latest industrial addition is the mill of the Denver Alfalfa Milling & Products Company, occupying a seven-acre site. This mill manufactures high grade dairy feeds and will give a ready market for large quantities of alfalfa.

A bean cleaning plant with a capacity of 200 bags of beans per hour is located on the Western Pacific Railway. The plant is owned and controlled by members of the corporation, all bean farmers of the Tracy district.

Unlimited cheap water and electric power, cheap fuel oil, natural gas, low priced acreage for industrial plants requiring considerable ground area, unexcelled transportation facilities (rail, highway and water) make Tracy an ideal location for all kinds of industry. Less than two hours from the San Francisco metropolitan area, with a population of one and one-half million, assures splendid markets. No wonder Tracy has often been referred to as "The City of Opportunity" and "The Food Basket of the San Francisco Metropolitan Area."
