LODI AND THE LODI DISTRICT

Furnished by the LODI DISTRICT CHAMBER OF COMMERCE

THE LODI DISTRICT where nature is superlative, consists of the Fourth Supervisorial district of San Joaquin County and contains 248,700 acres, or approximately the north one-third of the county, and extends from the foothills of the great Sierra Nevada mountains on the east to the waterways of the San Joaquin, Mokelumne and Sacramento Rivers on the west, including thousands of acres of rich reclaimed Delta land nationally known for its productiveness.

Lodi is the principal city in this thriving district and is surrounded by the following towns and trade centers: Lockeford, Clements, Victor, Acampo, Woodbridge, Thornton, Terminus, Live Oak and Youngstown, and other shipping stations. The district is served by three transcontinental railroads—waterways—and practically every road in the district is paved or hard-surfaced.

Lodi is located in Northern San Joaquin County, in the extreme northern part of the great San Joaquin Valley, on U. S. 99 Highway, and State Highways 12 and 50, fourteen miles north of Stockton and thirty-five miles south of Sacramento. Lodi's population 1940 census is 11,079, a gain of 63.3% over the 1930 census, which places Lodi in third place of all the cities in California in population gain during the last ten years and in first place for Northern California. Lodi has splendid hotels and restaurants; its business section is modern and well planned, and its stores and shops are well stocked and doing a good business.

Lodi people are healthy and well educated. In the 1932 nation-wide Health contest sponsored by the American Public Health Association, Lodi won first place and the national trophy in the sixth class which represents all cities in the United States with a population of 20,000 or less. This achievement brought honor to Lodi, the county and the State of California. This city is considered by county and state health officials as a criterion of the health program of the state.

Lodi public schools rank high in California's high standard educational system, and its union high school is accredited by universities with splendid

scholarships; and its four modern elementary schools offer every available advantage in educational achievements. Grammar schools of the district surrounding Lodi are also bright spots in the educational picture and are in close touch with the local schools.

Lodi is a pleasant, healthy, liveable place, with 32 miles of paved streets, brilliantly lighted with ornamental electroliers and lined with public buildings, modern business structures, and attractive homes with beautiful lawns and colorful gardens. Twenty-two churches grace its landscape with large and beautiful structures, which provide adequate spiritual opportunities.

Every month in the year is harvest time in the Lodi District. Bathed in California's golden sunshine, the rich soil of the Lodi District produces crops of superior size and quality. Lodians do not speak of their crops unless they excel, and yet here is produced the greatest diversification of crops of any district in the nation, and will grow abundantly and profitably almost every known kind of fruits, vegetables, grains, nuts, flowers and shrubs which are grown in any state.

The home of the FLAME TOKAY GRAPE. All Tokay grapes produced in the United States are grown within a radius of 35 miles from the City of Lodi, and the Lodi District proper produces 82 per cent of this entire crop. From four to seven million crates of these famous grapes are shipped annually from the Lodi District to the markets of the world. In addition, the District contributes to the fruit bowls and dinner tables, thousands of carloads of wines, peaches, pears, nectarines, plums, prunes, apricots, cherries, melons, celery, asparagus, lettuce, peas, beans, rice, potatoes, sweet potatoes, onions, wheat, barley, oats, corn, hogs, cattle, sheep and poultry. It is an agricultural community of growing diversification. Succulent vegetables and luscious fruits, packed for shipment or canned, roll out of fields and warehouses in "seed-catalog" variety. The District's soil, a rich, sandy loam, is a "Good Provider."

The Lodi District shipping record reveals that 13,000 to 15,000 carloads of farm products are shipped annually, 75 per cent of which is perishable or refrigerated freight, and in addition a vast tonnage of fruits and vegetables is moved by truck. On the average 240 carloads of products of the soil leave the Lodi District every week in the year.

Grapes and wine lead diversified products of this district which is the center of the United States wine industry. Lodi District is the largest wine grape producing area and has the largest group of wineries. The nineteen large wineries in this district have a combined capacity of 28,651,000 gallons, which capacity justly entitles Lodi to be known as the "WINE CENTER OF THE UNITED STATES." This is made possible by the immense vineyard acreage of the district, exceptional quality of grapes produced, the large production of the vineyards and over fifty varieties of grapes that grow to perfection here. These advantages make it possible to produce almost every known kind of wine under the most favorable conditions. Seven of these wineries are co-operative, owned and operated by the vineyardists of the District.

STOCKTON, CALIFORNIA**RECREATION PLENTIFUL IN THE LODI DISTRICT**

The City of Lodi is proud of its four parks with their tennis courts, ball diamonds, play grounds, plunge, well kept lawns, trees, shrubs and flowers. Outstanding among these is the beautiful Municipal Lake Park with its clear water, bathing beaches, boating, picnic grounds, shade trees and drive. Base ball, football, soft ball and aquatic sports all have their season and receive the support of the community. Lodi's new Municipal Stadium, "THE GRAPE BOWL", is the last word in stadium construction and when entirely completed will seat 55,000—present seating capacity, 15,000. The scenic and tricky Woodbridge Golf and Country Club with its natural hazards, grass greens and fairways, is only ten minutes from the business section of Lodi; with one-half dozen other golf courses within 30 to 60 minutes by automobile. Trout streams and mountain lakes in the Sierra Mountains are reached by automobile in one to two hours, and two to three hours will take you to dozens of high Sierra resorts, snow capped peaks, the wonderful Calaveras Big Trees, Yosemite Valley, Lake Tahoe, Silver Lake, the Mother Lode country, and hundreds of scenic and appealing camp sites. Two and one-half hours by automobile will also reach San Francisco, Oakland, Berkeley and all San Francisco Bay attractions, and just a little longer will find you at Santa Cruz or Monterey Bay points. Twenty to thirty minutes ride will reach the wonderful striped bass waters of the Delta west of Lodi, also the duck, snipe, pheasant and quail hunting grounds. A short hour's trip takes you to Sacramento, the State capital.
