MENLO PARK

Menlo Park and Atherton are not incorporated. Houses are not numbered, so merely the streets are given along which houses are located. For the same reason it is impracticable to compile a street directory, but the streets are listed and their locations given. In cases of residents some distance from the postoffice who receive their mail by rural free delivery the box numbers are given. Menlo Park is a home and school center. It has quite a number of business places and several organizations and a number of churches. These are:
