## Brigadier General Lightner Speaks

DRZightner

The attention of the adult is almost wholly on the world conflict - working, thinking, hoping, discussing. During this period of anxiety the youth are sure to receive some neglect. The girls and boys now in high school will probably play a greater part in the post-war period of reconstruction than in the war itself. To guarantee the freedoms we now enjoy, it is imperative that you keep physically and mentally fit. Carry on as nearly normal as possible but hold steady. Be prepared to help repair rather than having to be repaired.
